Application for the BSIS Honors Program

The application should be submitted to the Undergraduate Student Services Manager by April 1 during the year in which the student plans to register for INLS 691H.

The requirements for conducting an Honors Thesis in Information Science include having taken at least four INLS courses, including two numbered higher than 299, and having a total INLS GPA of at least 3.5. The student should have an overall GPA of at least 3.2.

**Application**

In addition to this sheet, please also include:

1. A list of all courses taken by the student, along with the grades earned in those courses. A print out from Carolina Connect is sufficient documentation. Students are not required to request an official transcript from the registrar.
2. A one-page proposal, including a one-paragraph description of the research topic, several questions related to the topic (i.e., what you want to discover or learn), and a short list of approximately five sources related to the topic.
3. The name of a SILS faculty member the applicant would like to serve as his/her advisor. (It is advisable for the student to talk this over with the faculty member first.)

The advisor and the DUS, in consultation, will decide whether the student will be permitted to register for INLS 691H, and also whether the proposed advisor will serve as the Thesis Advisor.

Name: _____________________________________________________

Email: ____________________ Phone: ______________

Major(s): ________________________________

PID: __________________

Expected date of graduation: ______________

Current SILS academic advisor: ______________

INLS courses completed before beginning honors:

What is your current OVERALL GPA? ______  Current INLS GPA? ______

If you are admitted to the BSIS Senior Honors Program, who will serve as your faculty advisor? ____________________________
